Check OPL&CPL

As a product owner

I want both CPL and OPL algorithms works fully as described,so that the project could be running without bugs

Acceptance Criteria:

Unit testing codes finished, System test finished and the program can be runned.

Effort:Medium

Create GUI

As a user

I want to use a GUI

So that will be more easy for me to use the the software

Acceptance Criteria:

- There are no bugs in the case
- Graphic APIs(Such as OpenGL) are applied
- Validate an executable file

Effort: Large
